Which Google Cloud certification is right for me?

I'm a business professional, looking to learn about the capabilities of the cloud.

I studied computer science or I'm an IT professional just getting started with cloud computing

I am experienced with cloud and work with customers and with my own IT teams to build Cloud solutions
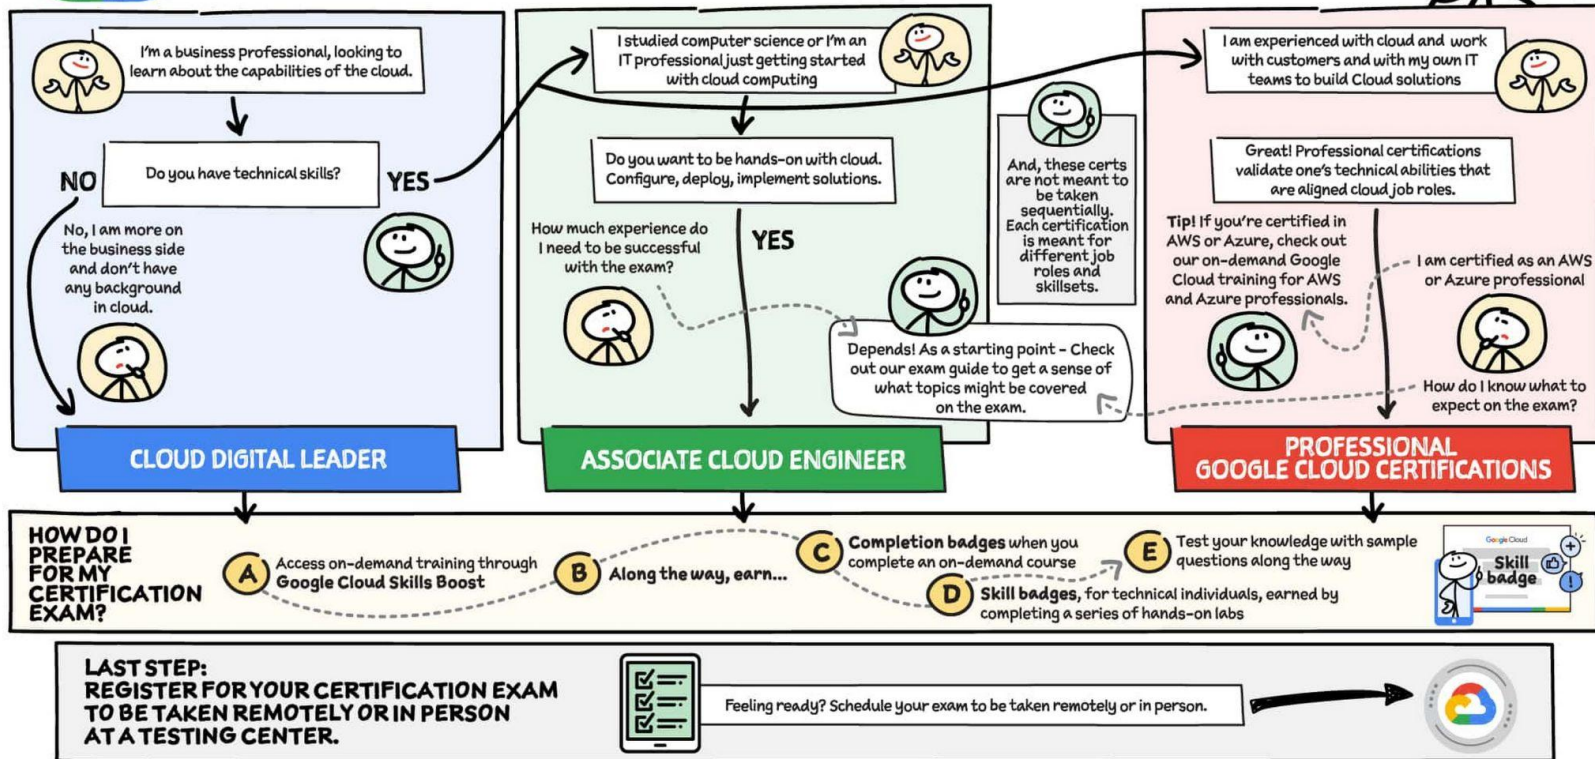

NO Do you have technical skills? **YES**

Do you want to be hands-on with cloud. Configure, deploy, implement solutions.

And, these certs are not meant to be taken sequentially. Each certification is meant for different job roles and skillsets.

Great! Professional certifications validate one's technical abilities that are aligned cloud job roles.

No, I am more on the business side and don't have any background in cloud.

How much experience do I need to be successful with the exam?

YES

Tip! If you're certified in AWS or Azure, check out our on-demand Google Cloud training for AWS and Azure professionals.

I am certified as an AWS or Azure professional

Depends! As a starting point - Check out our exam guide to get a sense of what topics might be covered on the exam.
